About Vivekananda Mahavidyalaya

On the eve of Swami Vivekananda's Birthday Centenary in 1963, the District Magistrate of Burdwan Mr. K.P.S.Menon, Chairman of Zila Parishad, Mr. Narayan Chowdhury and other honorable citizens of Burdwan took initiatives to establish a new college in Burdwan town. Mr. Prafulla Chandra Sen, the then Chief Minister of West Bengal, laid the foundation stone for the proposed Vivekananda Mahavidyalaya at the spot on 8th March, 1964. On 26th August 1964, the college was inaugurated formally as a Govt. Sponsored college. Setting out in a rather unceremonious way, the college has gradually occupied a glorious position in the field of higher education in West Bengal. Over time the college has growth both in structure and stature. Post graduate and Degree Honours Courses in various subjects have been introduced. The college has not merely created to the needs of students in Burdwan and its hinterland, but it has also been successful in maintaining a healthy, disciplined academic atmosphere for purposeful education.

Conference Overview

It gives us immense pleasure to cordially invite you to the International Conference on "Life and Environment: Issues and Concern" organized by Department of Botany, Vivekananda Mahavidyalaya in collaboration with Internal Quality Assurance Cell (IQAC), Vivekananda Mahavidyalaya on 9th March 2023. This conference will provide an excellent platform for exchanging ideas, thoughts, knowledge and recent research findings among students, research scholars as well as academicians coming from different part of India and abroad. This international conference has been designed to focus on Biological science and other Interdisciplinary subjects.

Biological science is always concerned with the problems and finding solution of these problems related to environment as well as life. Biological science is intimately related with various major fields of science including **Biochemistry, Biophysics, Nanoscience, Biotechnology, Evolutionary biology, Zoology, Environmental science, Bioinformatics, Medicinal biology, Phytochemistry, Ecology, Biostatistic, Microbiology & Social Science.** The conference program includes speakers and discussion leaders from different institutions, concentrating on the latest developments in the field of biological science. In addition to premier talks, the conference has designated time for presentation of novel findings from all our dear participants.

Area Covers

Biological Science: Botany, Zoology, Physiology, Biotechnology - Challenges & Prospects.

Environmental Science: Environmental Ecology, Environmental Evolution

Medical Science: Medicinal biology, Phytomedicine & Herbal Technology.

Earth Science: Evolutionary lineages, significant changes of Earth

Chemistry: Biochemistry, Phytochemistry, Nanoscience - Emerging Technologies for better Life.
